I liked the wheel program because it was a convenient and straightforward way to achieve both my bachelor's and master's degrees. I knew each semester what classes I was going to take and how long it would take to complete them. Others should take the wheel program if they are working and want a convenient way to achieve their education. The classes are delivered via evenings, weekend or online giving you many ways to Stay Near and Go Far. If you are thinking about going back to school to make a better life for you and your family, look into the wheel program. It will be a turn down the right path.
